H. S. C
2017 - 2019

Section- **Science**
GPA 4.67

INDEPENDENT UNIVERSITY OF BANGLADESH
BSc
2020 - 2025

Major- **Computer Science**
CGPA 3.0 (till 7th semester)

TECHNICAL SKILLS

Frontend

- HTML
- CSS
- JavaScript
- Next.js
- Tailwind CSS
- TypeScript
- Bootstrap

Backend

- PHP
- Python
- C++
- MERN

Design & Productivity

- Figma
- Canva
- Lucid Chart
- GitHub
- WordPress
- MS Word, Powerpoint
- Google Docs, Slides
- Adobe Photoshop
- Adobe Lightroom

Soft Sliks

- Critical Thinking
- Communication
- Team Collaboration
- Problem Solving

Others

- Photography
- Video Editing

Languages

- Bangla (Native)
- English (Professional)

CO-CURRICULAR ACTIVITIES

- Microprocessor Project Showcase, TechFest Spring 2024 (2nd Runners- up)
- Intra IUB Programming Contest
- Programming Contest By HackerRank
  Position: Preliminary
- Photography Contest 2024 - IPC (Independent Photography Club)

ACADEMIC & PERSONAL PROJECTS

STUDENT PERFORMANCE MANAGEMENT SYSTEM

- Built a comprehensive web platform to manage student data using Python, Cython, JavaScript, HTML, and CSS.
- Developed 10+ interactive dashboards using real-time data, allowing department heads to monitor student progress and resource allocation; facilitated data-driven decision-making across departments.
- Ensured responsiveness and clean UI for optimal usability

MOVIE DATABASE APP

- Built a dynamic movie listing app using Next.js, TypeScript, and public APIs.
- Implemented search and filtering functionality with client-side rendering.
- Emphasized clean UI/UX and consistent component design.

E-COMMERCE WEB APPLICATION

- Developed a modern online store using Next.js, JavaScript, and MongoDB.
- Integrated secure authentication via Clerk and automated workflows using Inngest.
- Implemented shopping cart, checkout, and product filter functionality.

ONLINE FOOD ORDERING PLATFORM

- Built a responsive food ordering web application using PHP, HTML, and CSS.
- Enabled seamless user interaction for browsing menus, placing orders, and managing cart items.
- Implemented order management features for both customers and admins to ensure smooth food delivery workflows.
